Community in Mourning after Tragic Motor Vehicle Accident

Six Nations of the Grand River Elected Council and Emergency Control Group send condolences to the families affected by the tragic motor vehicle accident that happened early Thursday morning.

The community is in mourning, following the tragic accident that happened this past Thursday October 15, 2020.

We have seen tremendous outpouring of support provided to our families when we lose a loved one, gathering with each other to provide supports through the hardship.

“Our community is in mourning. Heartfelt condolences go out to the families affected by the tragedy. It is especially difficult situation for all, our families are large and they often gather in situations like this.” Said Elected Chief Mark Hill. “We just want to ensure that people think about protecting one another and staying safe.”

Our community is also in a precarious state with the number of COVID positive results since October 1st. Public Health expresses concerns in the number of active cases currently in the community, which is 29 active cases as of October 17th.

Community members are encouraged to continue to protect one another by refraining from attending large gatherings, showing support and condolences through other means such as phone calls, bereavement messages on the funeral home website, or by virtual means.

It is now critical more than ever that, all Six Nations community members continue to follow the core health principles:

1. Reduce activities to essential only and not gathering outside of your own household,
2. Maintain physical distance,
3. Stay home and away from others when you are sick or have even mild symptoms,
4. Wash hands with soap and water or alcohol-based hand sanitizer,
5. Wear face covering, and
6. Clean/disinfect commonly touched surfaces at home and work constantly
